

III International Conference “Energy Efficiency in Industry, Agribusiness, Housing and Communal Services”

4 October 2016, Kyiv

9.00-9.30	Registration. Welcoming coffee
9.30-9.45	Welcome speeches <ul style="list-style-type: none"> - Ms. Oksana Reminska, President of Association on Energy Efficiency and Energy Saving - Ms. Isabelle Dumont, Extraordinary and Plenipotentiary Ambassador of France in Ukraine
9.45-11.00	1. Panel discussion “On the agenda: driving or braking energy efficiency in Ukraine?” <i>Moderator– Oleg Kozachuk, Vice-President, AEE</i> <ul style="list-style-type: none"> - Will Ukraine reduce its energy consumption by 9%, declared in the National Energy Efficiency Action Plan until 2020? - Energy efficiency policy or substitution of concepts? - Energy Efficiency Fund: what to expect? - Does Ukraine need an Energy Efficiency Code? - What should be done first to improve the legal framework? - ESCO Market, year after: how many projects have been launched? - Whether effectively has been used international and national financial aid? - Increase of tariffs: optimization of energy efficiency policy or a blow to the wallets of consumers? <i>Participants:</i> <ul style="list-style-type: none"> - Mr. Oleksandr Dombrovskyy, Member of the Parliament (tbc) - Mr. Oleksiy Riabchyn, Member of the Parliament - Mr. Krzysztof Gierulski, (Support Group for Ukraine (SGUA), Brussels (tbc) - Mr. Srgiy Savchuk, Head of the State Agency on Energy Efficiency and Energy Saving of Ukraine (SAEE) - Mr. Sviatoslav Pavluk, Chief expert of the Energy group, RPR
11.00-11.30	Coffee break

11.30-13.00	2. Section "Key levers of project implementation: financial instruments and legislative initiatives"	3. Section "Key levers of project implementation in Agribusiness and Food Industry: financial instruments and legislative initiatives"
	<p><i>Moderator – Ms.Oksana Reminska, President, AEE</i></p> <p><i>Questions for consideration:</i></p> <ul style="list-style-type: none"> - Implementation of international obligations of Ukraine - Partner, Law Firm ILF. <i>"Legislative initiatives and ESCO market in Ukraine"</i> - Financial instruments for implementation of EE projects - Projects of International technical support 	<p><i>Moderator – Mr.Nicolas Perrin, Agricultural counselor, Embassy of France in Ukraine</i></p> <p><i>Questions for consideration:</i></p> <ul style="list-style-type: none"> - Mr.Nicolas Perrin, Agricultural counselor, Embassy of France in Ukraine. <i>Energy Efficiency of Ukrainian agricultural sector and opportunities for a bilateral Franco-Ukrainian cooperation</i> - Mr.Dmytro Tatarko, Head of Department on cooperation with agricultural enterprises of JSC "Ukreximbank". <i>Financing of the energy efficiency projects in the agricultural sector</i> - Projects of technical assistance - Legislative initiatives
13.00-14.00	Lunch	
	4. Section “Energy Efficient technologies in construction and Communal Cervices”	5. Section "Energy conservation in agriculture and food industry"

	<p><i>Questions for consideration:</i></p> <ul style="list-style-type: none"> - French Architecture Agency ARC-MOE*. <i>Modern EE construction</i> - Heating systems - Ventilation, air conditioning and cooling systems - Energy Efficient lighting 	<p>1) Processing of agricultural crops</p> <ul style="list-style-type: none"> - Production of liquid biofuels in the sugar and alcohol industry - Technologies in the manufacturing of dry rations - Getting energy efficient materials from hemp / linen - Use of agricultural waste as energy source - Energy-efficient technologies of land cultivation - Optimization of the structure of sown areas - Processing and storage of crops
15.30-16.00	Coffee break	
16.00-17.40	<ul style="list-style-type: none"> - Energy-efficient communications in the house - Insulation materials - Windows and light permeable constructions 	<p>2) Meat and dairy industry and cattle-breeding complexes</p> <ul style="list-style-type: none"> - Energy efficiency in farms - Biogas: an energy source or a product for sale? - Modern technologies and comprehensive solutions to improve energy efficiency of: <ul style="list-style-type: none"> ➤ slaughterhouses ➤ dairy plants ➤ poultry farms
17.40	Summing up of the Conference	
18.00-20.00	Gala Reception	

* The Program may be clarified
